BUILDING YOUR HEALTHCARE

Brymor firmly believe that few contractors can offer our range of expertise, whilst working in a live hospital environment to clean room standards. Our dedicated on-site personnel remain flexible, considerate and focused on cleanliness, efficiency and working in a manner which reduces disruption to staff, patients and visitors. Our team has a vast amount of experience working in, or next to, live wards where particular consideration is needed for patients, such as oncology departments, intensive care units and maternity units. Brymor's policy is to approach each individual project with sensitivity and most importantly, absolute consideration for everyone directly involved, or within close proximity to our wards.

Alongside the NHS trusts Brymor produce buildings that benefit the community as a whole, contribute to the sustainability of the local economy and enhance the local area.

Chris Kemble, Healthcare Director

Brymor – Your Specialist Healthcare Contractor

Brymor have been successfully carrying out projects on behalf of healthcare establishments for over 10 years, helping various trusts to deliver a large number of complex healthcare schemes, from New High-Tech Theatres to the Refurbishment of Neonatal Wards, and are currently resident at one of Hampshire's largest and busiest hospitals as a general contractor.

Brymor are committed to achieving the goals set by the Department of Health in terms of sustainable construction practices, delivering value for money and of course supplying a quality service with great end products, which are delivered to programme and within budget.

Brymor have worked for a number of different Trusts, both in the past and at present, including:

- Southampton University Hospitals NHS Trust
- Southampton Primary Care Trust
- Basingstoke and North Hampshire NHS Foundation Trust
- Frimley Park Hospitals NHS Trust
- Portsmouth Healthcare NHS Trust
- Broadmoor Health Authority
- Dorset Healthcare NHS Trust
- Hampshire Primary Care Trust
