Sherborne House School.

About the project.

The demolition of three old classroom buildings, construction of new timber framed classroom block and sports hall together with landscaping works.

Sherborne House School is one of the most inspiring private schools in Hampshire, and aspires to provide a well-balanced and wide-ranging educational environment.

The breakdown of the works included.

- Removal of three existing buildings including foundations
- New foundations and floor slab
- Installation of new electrical and gas mains

Works were carried out in a live school environment, therefore extra care had to be considered as to provide continuity to the schools' activities.
