**CASE STUDY**

Sherborne House School.

About the project.

Sherborne House School is one of the most inspiring private schools in Hampshire aspiring to provide a well-balanced and wide-ranging educational environment.

This project involved the demolition of three existing classroom buildings, construction of new timber framed classroom block and sports hall, with associated landscaping works.

The breakdown of the works included:

- Demolition
- New foundations and floor slab
- New installation of new Electrical and Gas main

Works were carried out in a live school environment. At all times extra care was taken to provide continuity of the schools' daily activities.
